

Meet our 2024 funded partners!

The AAAA is committed to helping older people maintain their highest level of independence by developing and coordinating community care, reducing isolation, and improving access to services.

This list includes a list of Older American's Act funded services. Each of the agencies listed offers additional services for older adults and caregivers and may or may not use the same enrollment or eligibility process.

The AAAA administers the Title III Federal Older Americans Act funds by awarding funding to local community providers to provide supportive services, transportation, caregiver support, health promotion and disease management, home delivered meals and congregate dining.

During 2024, the AAAA awarded grants to 18 agencies with Title III Federal Older Americans Act and other federal and state funds totaling over \$3.5 million.

Older American's act funding is targeted to low-income and minority residents over the age of 60 in the region. With a special emphasis on frail and rural residents. The programs offer a sliding fee scale cost share payment system where the consumer self-reports their income and pays what they can afford. The programs may send a statement about the cost of the services, but they cannot carry a balance forward for the consumer.
